The Fourth Annual
USC Hearing and Communication Neuroscience Symposium
(Location: Herklotz Auditorium, Zilhka Neurogenetic Institute, USC Health Sciences Campus)

Friday, October 5, 2018

8:15  Continental Breakfast
8:45  Welcome and Introduction
9:00  Matthew Kelley, National Institute on Deafness and Other Communication Disorders
      “Examining Cochlear Development at the Single Cell Level”
9:45  Joshua McDermott, Massachusetts Institute of Technology
      “Computational Neuroimaging of Human Auditory Cortex”
10:30 Break
11:00 Kenneth Pugh, Haskins Lab
11:45 Barbara Shinn-Cunningham, Carnegie Mellon University
      “Brain Networks Controlling Attention at a Cocktail Party”
12:30 Lunch
2:00  Samuel Sober, Emory University
      “Sensorimotor Learning and the Dynamics of Birdsong”
2:45  Nace Golding, University of Texas at Austin
      “Computational Roles for Diversity in Physiological Properties in the Sound Localization Circuitry”
3:30  Break
4:00  Lori Holt, Carnegie Mellon University
      “Listening in on Speech Learning”
4:45  Reception in foyer of the Broad Center (immediately opposite of ZNI)

Jointly sponsored by:
USC Hearing and Communication Neuroscience Training Program,
USC Caruso Department of Otolaryngology/Head and Neck Surgery,
Zilhka Neurogenetics Institute, USC Dornsife College of Arts, Letters, and Sciences
